Procedures for practicing at championship sites during the regular season

Regular Season – during the regular season, schools are allowed to host games at neutral tournament championship sites. By doing this, the team that would have been the “home” team still remains as the home team for purposes of index points. If it is a situation where both schools are travelling a significant distance, and agree to play at a neutral site in order to reduce travel for both teams, one team has to be designated as the home team for this competition. If this is a multiple year agreement between the two schools, it is expected that the schools would rotate the designated ‘home’ team requirement each year.

During the regular season, practices at a neutral championship site is not allowed as it would give an unfair advantage to the team(s) that were able to utilize the facilities.

Tournament Season – during the tournament season, schools are not allowed to schedule play-down, quarter-final or semi-final games at a neutral championship site unless extenuating circumstances.

Practices or scrimmages at a neutral championship site are not allowed during the tournament season.

RAFFLES

50-50 raffles will be permitted for any tournament activity hosted at a school site. (ASC May, 2001).

ALCOHOLIC BEVERAGES, DRUGS OR TOBACCO PRODUCTS ARE NOT ALLOWED AT ANY VPA SPONSORED ACTIVITY.

DISCLAIMER

Every attempt will be made to develop tournament dates and sites well in advance, but with the understanding due to circumstances beyond the control of the Vermont Principals' Association, such tournament dates and sites may be subject to change and/or tournament games may be in conflict if a school has more than one team participating in post-season play.

Application for admission to a tournament is made with the understanding that if selected for a tournament, the team will participate in said tournament under the conditions as stated above.
