EPHESUS SPORTS LIGHTING ANNOUNCED AS THE OFFICIAL SPORTS LIGHTING PROVIDER OF THE VPA

MONTPELIER, VT – APRIL 25, 2021 -- The Vermont Principals Association (VPA) is pleased to announce Ephesus Sports Lighting as the Official Sports Lighting Partner of the VPA. Through the partnership, Ephesus will support the mission of the VPA while also providing opportunities for members to enhance their sports facilities by learning about the latest advances in digital sports lighting.

“We are thrilled to have Ephesus sponsor our association,” said Jay Nichols, VPA Executive Director. “Their commitment to finding the right solution for sporting venues will be helpful to our members looking to explore systems that are better for their student-athletes, communities and the environment.”

Ever since Ephesus illuminated the first sports arena with LED lighting nearly a decade ago, thousands of municipal and high school fields across North America have made the switch to digital sports lighting. The innovative technology provides facility operators with more control over their lighting including the ability to create entertaining light shows and make sure the light illuminates the playing surface and not the entire neighborhood.

“This partnership creates a platform for high school athletic directors, coaches and facility operators to learn how the latest innovations in digital sports lighting will allow them to take control of their lighting to enhance event presentation while reducing energy and maintenance costs,” said Mike Quijano, director of business development and product marketing for Ephesus Sports Lighting. “What was once a technology for professional sports venues is now a cost-efficient and energy-savings solution for municipal and high school fields of all sizes. We encourage all VPA members to take the time to learn how advances in digital sports lighting can benefit all in the communities they serve.”

About Ephesus Sports Lighting

Ephesus Sports Lighting provides state-of-the-art digital lighting systems with maximum flexibility to adapt to a venue's unique needs. As part of Cooper Lighting Solutions' family of brands, the company's LED solutions deliver lighting that provides exactly the experience fans and athletes expect and deserve, both today and tomorrow (www.EphesusLighting.com).
